

Year group: 6

Time Allocation: 8 weeks

Date: Autumn 1 2018

Teacher: T. Smith, R.Carter and M,Wolverson

Stanstead Nursery
and Primary School

Theme Title

Animal Antics

WOW

The class will
be producing
Nature
Documentaries.

Literacy/Communication:

Our English will 'run' through our theme and the children will be developing their grammar, punctuation and spelling- including relative clauses, semi-colons and prepositional phrases -through themed writing on Animals. Their writing will include: non-chronological reports, narrative texts, with a particular focus on description, and a discussion text. The children will be developing their reading skills through the use of reading journals. They will have the opportunity to do a range of activities to support and show their comprehension of texts.

Numeracy:

In Maths, we will be focusing on securing our knowledge of place value, using accurate written methods for the four operations and working on decimals, percentages and their equivalence to fractions. These will be explored in a variety of ways and by exploring a variety of problems to enhance our skills of application. We develop our reasoning skills in writing as well as orally.

Science: We will be comparing and classifying different types of animals and exploring their habitats. We will also be looking closely at how animals adapt to their environments.

Computing: We will be using the i-pad to create a nature documentary, which will include pictures, text and audio. We will also be using book-creator to create information in different biomes.

Geography: We will be locating the world's countries using maps and identifying the species of animals that can be found around the world. The class will also look at different biomes and explore different landscapes and climates.

Art and design: In art, we will be using a range of sketching techniques to draw animals. We will be using our creativity to produce an artistic animal masterpiece using natural resources from our environment. As part of our D&T focus, we will get the choice of making a paper mache animal or an animal with a moving mouth.

PSHE: We will be focusing on relationships. Within this, we will be exploring ways to maintain healthy relationships, recognising and managing our emotions within relationships and recognising negative relationships.

RE: As a class we will look at how different faiths worship and pray.

Music: We will explore the effect music will have on different pictures displayed on a video. We will also be creating our own background music.

PE: We will be taking part in multi sports, which is ran by an outsider provider: Major Oaks. Every Friday, we will be swimming at Ken Martin Leisure Centre and working on competency, confidence and proficiency.
