

Year 6

Autumn 2 Newsletter

May I take this opportunity to welcome everyone back after the half term break.

During this half term, we will be focusing on World War 2. We will be creating a range of pieces of writing and art work through this theme. We will be exploring what evacuation was like for children back in World War 2 and will be trying to put ourselves in their shoes, as we write diary entries.

We will be creating some artwork looking at The Blitz using silhouettes and some photos of cities that were bombed during the war to help us.

We will explore the significance of poppies and will create a range of artwork incorporating poppies.

In Maths, we will be spending some time working with fractions. We will look at adding and multiplying fractions, simplifying fractions and converting improper fractions to mixed numbers. We will also explore geometry; this will involve position and direction using coordinates.

P.E

P.E sessions this half term will be on a Friday morning. Please ensure your child has the correct P.E kit in school for both indoor and outdoor sport. Swimming will continue on Friday afternoon until the end of term.

*During P.E lessons, it is an expectation that earrings are removed for the safety of all children.

Homework

The children will continue to receive homework every Friday in their homework book. Their homework book should be returned to school by Thursday of the following week. Your child also may receive a small bit of homework, linked to their targets, during the week.

The expectation is that your child will read regularly at home. Please encourage your child to ask if they are unsure of any word meanings.

Your continued support is appreciated.

Please feel free to come in and speak to me if you have any concerns.
