

Year 3 Newsletter

I am very excited to announce that our theme this half term is the Sea. Our topic question is "What can you find in the deep sea?" We will be focusing on environmental issues affecting our Seas and Oceans such as plastic pollution and global warming.

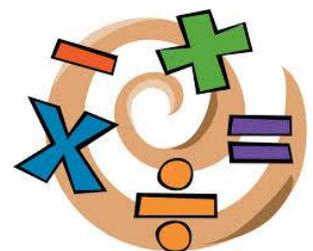

I am looking forward to learning all about the world around us and how we can make changes to save our planet.

As Scientists we will be focusing on pollution in the sea. We will be learning about the environment and the animals' habitats that are affected.

In Maths, we will be focusing on statistics. We will be looking in great depth at pictograms, tally charts and bar charts. We will be continuing to develop our reasoning skills in writing as well as orally.

If children could use times table rock stars to continue to improve their times table knowledge.

Some important days to remember:

Monday	P.E Kit
Tuesday	
Wednesday	
Thursday	Ice Skating
Friday	P.E Kit

On Thursday 7th March, Year 3 will be going to the library for World Book Day. Please can parents make sure all children bring a packed lunch.

Home/School Diaries

All information regarding Homework and other notes will be recorded in your child's Home/school diaries. I will check diaries regularly; this is a good way to communicate with me.

Reading

As a class, this half term, we will be reading Flotsam. I am really excited to share this fantastic picture book with you. It is also essential that children continue to read at home with the expectation of reading one book approximately every two weeks. Time is allocated within each school day for children to read independently and to spend time enjoying a book.

Times Tables

Any and all extra support for learning times tables at home will greatly benefit your child.

Please feel free to come in and speak to me if you have any concerns. Let's continue to have a fantastic year working together.
